- Non-union fractures
- Stress Fractures
- Pseudoarthrosis
- Avascular Necrosis
- Plantar Fasciitis (with or without Heel Spur)

BENEFITS OF OMNISPEC™

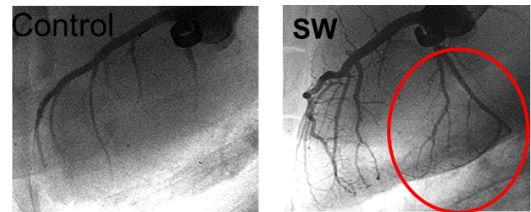

- Non-invasive, no pain, no bruises
- No anesthesia
- No installation
- No training required
- High effectiveness rates
- Short treatment time (15 min.)
- Deep wave penetration (up to 14 mm)
- Relaxed, comfortable treatments
- Compact and easy to transport
- User-friendly technology
- Cost-effective, reliable, low-maintenance consumables

BEFORE & AFTER

Angiogenesis

Before Treatment

4 Weeks Post-treatment

Since its founding 30 years ago, Medispec has been a leader in the advancement of acoustic wave technologies, initiating new treatments and applications across medical disciplines, providing health and economic benefits to providers and their patients.

MULTI-WAVE TECHNOLOGY

Multi-Wave is a steady, reliable stream of high-energy shockwaves, uniquely designed for optimal non-invasive treatment. No other shockwave is designed with multiple points of reflection to deliver waves across a deep, large healing zone.

- High efficacy rates
- Trusted by doctors worldwide
